for health  
service delivery

# iHRIS Countries

# Exemplar Open Source Fdns

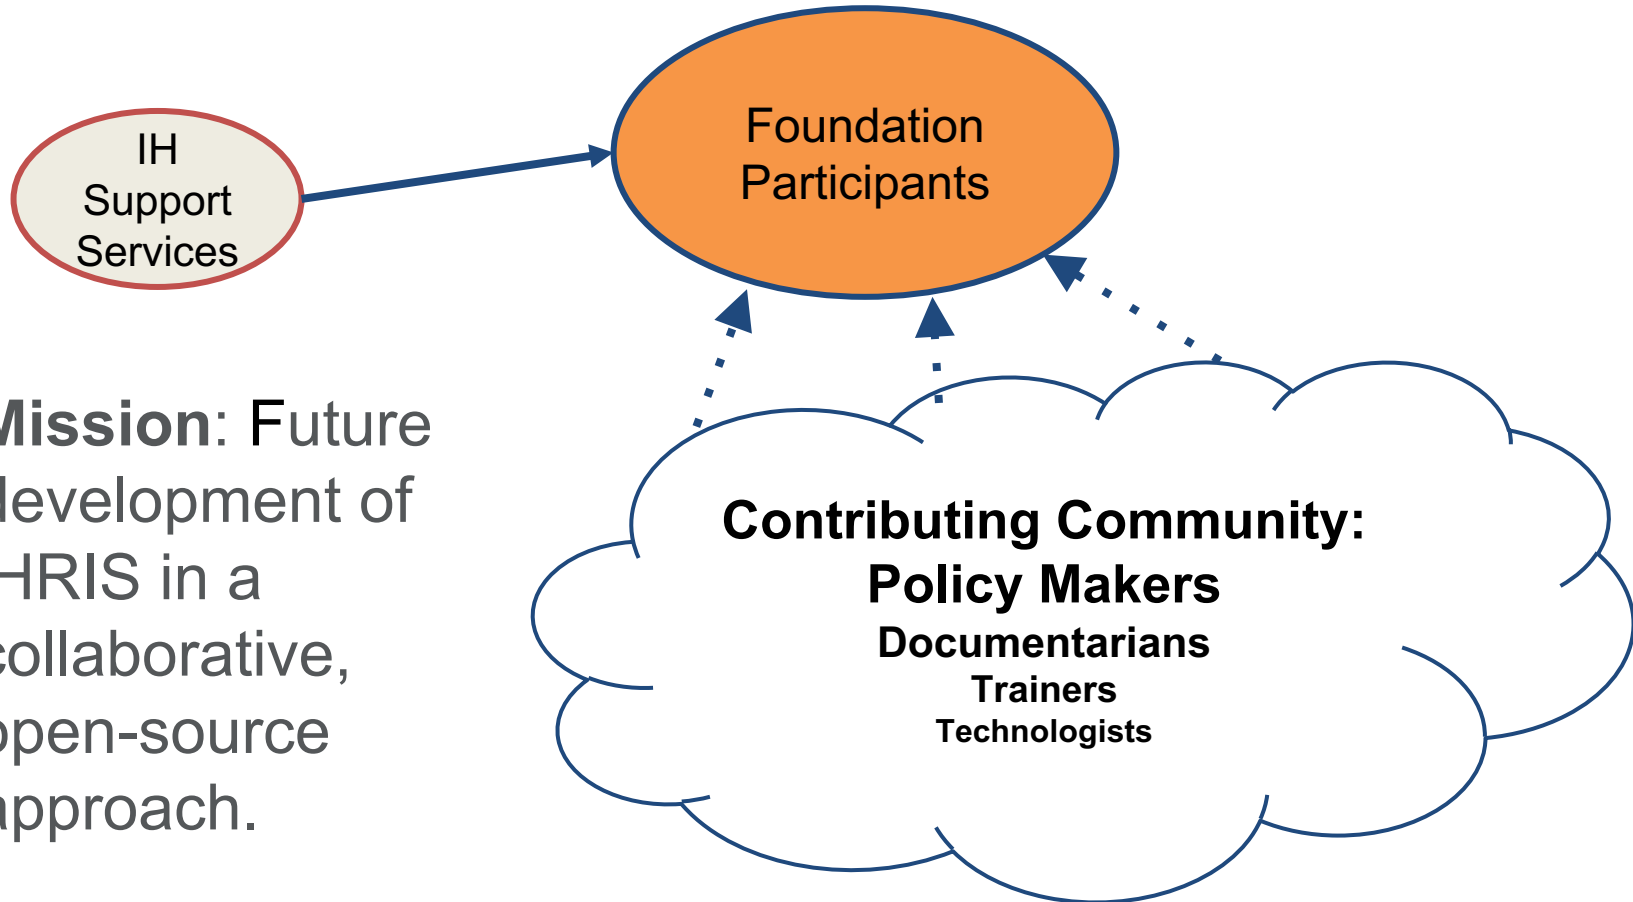

- **Apache Software Foundation** (1999)
- **Mozilla Foundation** (2003)
- **WordPress Foundation** (2010)
- **OpenMRS Foundation** (2015)

# IHRIS Emergent Needs

- Biometric attendance module
- API for common payroll systems  
(to search for ghost workers)
- Adaptation for use as a community health worker registry
- Updating the web interface
- Adding a mobile app
- Adding eHealth training registries
- Expansion to serve non-health worker populations  
(agriculture, mining, etc.)

# iHRIS Foundation (so far)

**Mission:** Future development of iHRIS in a collaborative, open-source approach.

# The Future

What's in it for me?

- Contribute your ideas
- See your ideas come to life
- Make a difference

# The iHRIS Fdn wants you!
